About this consultation

CW11 3WL, ENVIRO SKIP HIRE LIMITED: environmental permit consultation

The aim of this consultation is to ask whether you have any comments relevant to the permit application

We want to make the best decision when permitting. Listening to the views of others helps us to take account of concerns, or local environmental factors, that we may not be otherwise aware of.

We are seeking comments on the application for ENVIRO SKIP HIRE LIMITED. Please use the reference number below when making comments on this application.

- Permit Number: EPR/XP3396EF/V007
- Regulated facility type: This site is an existing waste operation which allows treatment and transfer of non-hazardous and hazardous waste. This variation application authorises:

  • Addition of a washing activity for production of recycled aggregates from non-hazardous waste. The annual throughput of this activity will be 250,000 tonnes.

  • Addition of an installation activity S5.6 A1 (a) (i) for storage of hazardous waste. The annual throughput for this activity will be 30,000 tonnes per year.

  • Extension of the site boundary to include an area of land to the west and north to house the wash plant and the hazardous waste storage facility

  • Addition of two non-hazardous waste codes for scrap metal to the existing waste treatment activity

  Treatment of hazardous waste will no longer be permitted and hazardous waste will be accepted for storage only.
- Regulated facility location: Enviro Skip Hire, Norton Way, Sandbach, CW11 3WL

Non-Technical Summary

Refer to the non-technical summary which explains this application, in non-technical language.
This should include a summary of the regulated facility, the key technical standards and control measures arising from the risk assessment.

What the response will be used for

We will take your consultation responses into consideration as part of our determination of the permit. If we decide to grant the permit we will explain how we made our decision and how we have addressed the concerns that were raised.

We will only issue a permit if we believe that harm to the environment, people and wildlife will be minimised and that the operator has the ability to meet the conditions of the permit. Providing a business can prove that the proposed

activities meets all the legal requirements, including environmental, technological and health requirements, then we are legally obliged to issue a permit, even if some people do not approve of the decision.

How to Respond

If you would like to comment online, please use the online consultation tool in SmartSurvey.

If you'd prefer to submit your response by email, contact PSCpublicresponse@environment-agency.gov.uk

How we will use your information

We will look to make comments received publicly available at our Environment Agency public register.

All comments which are made publicly available will exclude email addresses and telephone numbers. Any comments where confidentiality has been claimed will not appear on the public register.

In accordance with the Freedom of Information Act 2000, we may be required to publish your response to this consultation, but will not include any personal information. If you have requested your response to be kept confidential, we may still be required to provide a summary of it.

Consultation Principles

We are running this consultation in accordance with the criteria set out in the government's Consultation Principles.

If you have any queries or complaints about the way this consultation has been carried out, please email: PSCpublicresponse@environment-agency.gov.uk
