Dear Mr Groves

Transfer of permit

Permit number: PRNNF18564

Facility: Cucino Sano Rannoch Food Group, Laburnum Farm, Old Leake Boston, Lincolnshire, PE22 9PN.

Thank you for your notification of transfer. I confirm that the transfer of the environmental permit from previous operator name to you will take effect from date as specified in form.

I enclose a transfer notice which shows the legal details of the transfer.

The environmental permit should have been passed to you by the previous operator during the handover of the property or business. If you do not have a copy of the permit you must contact your local office to get one. Telephone our Customer Contact Centre on **08708 506 506** and they will put you in touch with an area officer.

You will also need to look at the document 'How to comply with your environmental permit' as this will help you understand how to meet the conditions of the permit. You can find this on our website at
http://www.environment-agency.gov.uk/business/topics/permitting/32320.aspx
If you do not have internet access please telephone our Customer Contact Centre.

Yours sincerely

Hema Amaravadi
Water Quality Permitting Team

Environment Act 1995)

ENVIRONMENT AGENCY

Consent to Discharge

Consent Number
PRNNF/18564

To:
Rannoch Food Group Ltd ("the Consent Holder")
Mant Firs
London Road
Kirton
Boston
Lincolnshire
PE20 1JE

The Environment Agency ("the Agency") in pursuance of its powers under the Water Resources Act 1991(as amended by the Environment Act 1995) hereby consents to the making of a discharge:

Of:
Secondary treated sewage effluent and/or trade effluent ("the Discharge")

From:
Two treatment plants serving a vegetable processing factory

At:
Cucina Sano, Rannoch Food Group, Laburnum Farm, Old Leake, Boston

To:
An un-named tributary of the Hobhole Drain

Subject to the conditions set out in this notice of Consent to Discharge.

Subject to the provisions of Paragraphs 7 and 8 of Schedule 10 of the Water Resources Act 1991(as amended by the Environment Act 1995), no notice shall be served by the Agency, altering this consent, without the agreement of the Consent Holder, during a period of 4 years from the date this notice is issued.

This Consent is issued on: 16 May 2006

This Consent takes effect on: 16 May 2006

Signed

Simon Nugent Team Leader Regulatory (Water Quality)

File ref: 30/13

1 Conditions of Consent for secondary treated sewage effluent and/or trade effluent

1.1 **Nature**

1.1.1 The Discharge shall consist solely of secondary treated sewage effluent and/or trade effluent.

1.2 **Place of Discharge**

1.2.1 The Discharge shall be made in the manner and at the place specified as:

a discharging to An un-named tributary of the Hobhole Drain;

b at National Grid Reference TF 3980 5147;

c shown marked "A/OUTLET AND SAMPLE POINT" on Site Plan attached to this consent.

1.3 **Sampling Point Requirements**

1.3.1 The outlet to controlled waters shall be constructed and maintained so that a representative sample of the Discharge may be obtained at National Grid Reference TF 3980 5147 as shown marked "A/OUTLET AND SAMPLE POINT" on the Site plan attached to this consent.

1.4 **Volume**

1.4.1 The volume of the Discharge shall not exceed 120 cubic metres per day.

1.5 **Flow Measurement**

1.5.1 **a** At the request of the Agency, the Consent Holder shall install, operate and maintain a means of flow measuring to a specification and at a location required by the Agency, to enable the daily volume and/or instantaneous flow of sewage and trade through the treatment plants to be recorded.

b The Consent Holder shall calibrate, operate and maintain the flow monitoring and recording system to a standard agreed or specified by the Agency. The flow and maintenance records shall be provided to the Agency as and when requested.

1.6 **Composition**

1.6.1 The Discharge shall not contain more than:

a 20 milligrammes per litre of biochemical oxygen demand (measured after 5 days at 20°C with nitrification suppressed by the addition of allyl-thiourea)

b 10 milligrammes per litre of ammoniacal nitrogen (expressed as N)

c 40 milligrammes per litre of suspended solids (measured after drying at 105°C)

1.6.2 As far as is reasonably practicable, the treatment plants shall be operated so as to prevent the Discharge from containing any significant trace of visible oil or grease.

1.7 **Priority Substances**

1.7.1
a The quantity of Copper or Zinc in the Discharge shall not increase above the levels in the Discharge on the date of effect of this consent where no specific level is authorised; and

b notwithstanding a above, the Discharge shall not contain quantities of Copper or Zinc such as to cause or contribute to the concentration of that substance in the receiving water exceeding the relevant Environmental Quality Standard (EQS).

1.8 **Works Operation**

1.8.1
a The treatment plants shall be operated and the effluent shall be treated in a manner which, so far as reasonably practicable, minimises the polluting effects of the Discharge made from the treatment plants on controlled waters.

b This condition does not require any alteration of the treatment plants or a change in the type of treatment used from that specified in the application.

1.9 **Maintenance**

1.9.1 The treatment plants shall be operated and maintained in accordance with good operational practice such that:

a they remain fully operational except at times of unavoidable mechanical or electrical breakdown which shall be attended to, and the Agency informed of the failure, as soon as practicable after the failure;

b following a failure all equipment shall be returned to normal operation as soon as practicable;

c tanks shall be desludged at sufficient frequency and in such a manner to prevent excessive carryover of suspended solids.

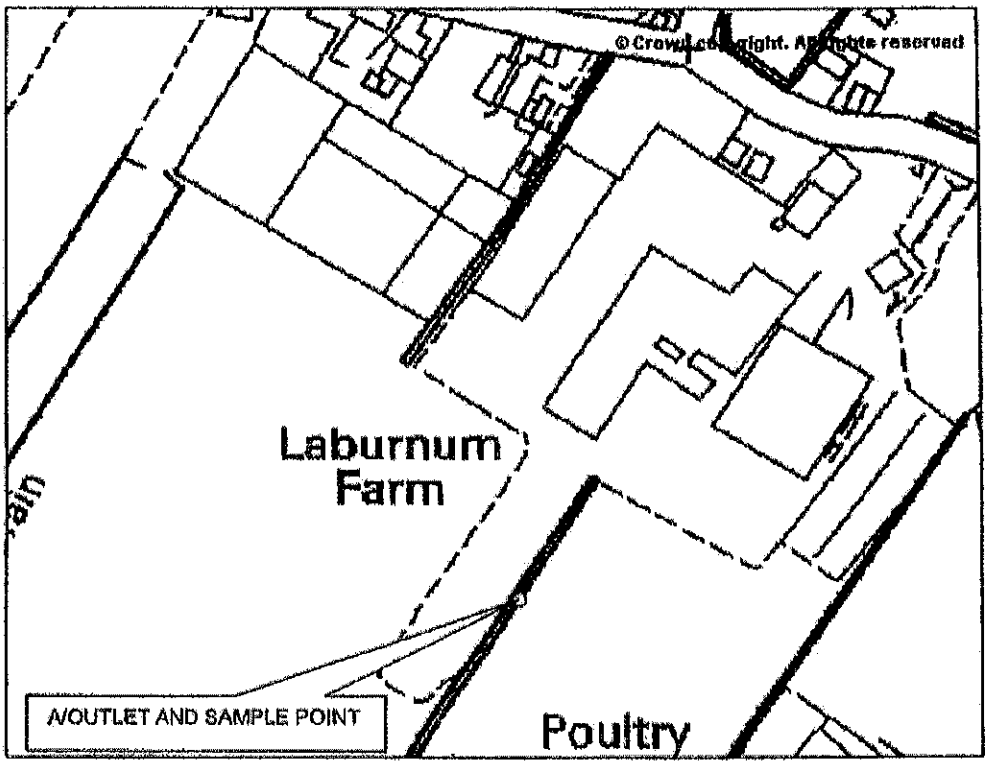

1.10 **Recording and Reporting**

1.10.1
a The Consent Holder shall establish and operate a documented maintenance programme and record all non-routine actions undertaken that may have adversely affected effluent quality. Copies of the programme shall be made available for inspection by the Agency's officers at all reasonable times.

b On request the Consent Holder shall supply the Agency with a written report on the maintenance and all non-routine actions that may have adversely affected effluent quality.

c The Consent Holder shall as soon as reasonably practicable report to the Agency all non-routine actions that may have adversely affected effluent quality.
